KEY FEATURES

- Installation Line Array
- 2 x 10MI low frequency loudspeakers, 2.5" VCD
- 1 x D.A.S. M-75 compression driver
- Rigging systems for permanent installation
- Rigging compatible with the Artec-322S

DESCRIPTION

The ARTEC-320 is a passive installation line array in a double 10" configuration. The DAS loudspeaker units has been teamed up with a single M-75 compression driver and purpose-designed injected aluminum high frequency waveguide.

The Artec-300 cabinets are constructed from Baltic Birch plywood and finished with a durable ISO-flex paint. The trapezoidal enclosure design helps eliminate standing wave coloration and at the same time, permits close-packed horizontal or vertical arrays.

The cabinet is manufactured using top quality Birch plywood and finished with a durable black paint finish. The JP-320 joining plates allow for an effective installation solution and are compatible with the ARTEC-322S subwoofer systems. The ARTEC-320 is delivered including the JP-320 joining plates.
