# Power Bar Truss Clip CCL60-P2

The Truss Clip CCL60-P2 is designed for easy and reliable mounting of the Power Bar and opticalBAR onto truss structures. The clip can be clicked directly into the truss — eliminating the need for bulky and expensive accessories.

## Features & Benefits

- Flexible solution: compatible with both Power Bar and opticalBAR units.
- Easy and reliable installation: click-in mounting onto standard truss structures.
- Saves space and eliminates the need for large and costly truss clamps.”
- Prevents loss during setup and transport: can be attached to the product housing with a safety wire (not included in the supply package).
