VISION CONTROL APP

LumiGo™ BOOK610 is a compact, battery-operated outdoor LED wash designed for maximum portability and precision. Featuring a rugged, adjustable housing and IP65 rating, it delivers vibrant, saturated color through 6x10W RGBW LEDs with a sharp 12° beam angle, ensuring reliable performance in any weather. Control is seamless via the Vision Control App (iOS/Android/Windows) or the integrated LumenRadio CRMX wireless DMX receiver, eliminating complex cable runs for fast-paced setups. LumiGo™ BOOK610 is available as an 8-unit professional set, providing a complete, easy-to-transport lighting solution for festivals, events, and installations.

The LumiGo™ BOOK610 kit includes magnetic frost filters designed to enhance the fixture's versatility. These filters magnetically attach to the LED wash, diffusing the sharp 12° beam to create a wider, softer light spread. This allows for smoother transitions and a more even wash, ideal for applications requiring a gentler illumination or broader coverage, such as ambient lighting or stage fills. The magnetic design ensures quick, tool-free installation, enabling rapid adjustments to the light effect on-site.

The Flight Case protects the LumiGo™ BOOK610 fixtures and accessories during transport. It integrates a charging box for efficient charging. This streamlines setup, ensuring reliable power for extended use, while keeping equipment organized and secure in a single, compact unit.
