

# TITAN ONE

## Titan One is the cost effective solution for your entry level lighting application

**Fast and Intuitive control of intelligent lighting, Dimmers and LED effects from one on screen console.**

Titan One DMX USB Dongle allows the user to output one line of DMX with the full functionality of Avolites Titan Software.

Access powerful features such as Pixelmapper, Quicksketch, Media Clip Select, Attribute Control-Blades and Shape Generator. Titan One allows you unlimited usage which gives you uninterrupted programming and playback time.

- Live music events – use the on-screen faders or touch screen flash to control and interact with your performance. Live, timed, Picture Palettes enable live busking at your fingertips.
- Corporate events – Titan One provides centralized control of media servers and multi-cell LED fixtures. Display your client's logo instantly with the Pixel Mapping tool.
- Museums, Retail and Son et Lumieres all run fully automated, scheduled playback from the time of day cue control.
- Theatre and Drama – benefit from 'Move in Dark', Hot Key 'Go Button' control and fast plotting via keyboard syntax.
- Clubs and bars – easy to use visual programming. Control any fixture with the huge, built in fixture library.
- TV and video studios - Live Edit and Update as well as Channel Output Monitor produces seamless production workflow.
- On board immediate context sensitive help for whenever you need a little assistance.
- Technicians tool – Test, Address and Fault Find your rig from backstage or the warehouse. Titan One provides a full functionality diagnostic tool.
- The Titan One is the lighting designers dream solution, allowing you to edit on the bus or in the hotel and then run the performance from Titan One, Titan Mobile, Tiger Touch, Expert Pro or Sapphire Touch.
