

CYCLOPS LIGHTING

COMET 30000 is an extremely powerful fully equipped RGB laser projector with 30000mW diode laser source. It has a high speed scanner and is controlled over ILDA and DMX with preloaded patterns allowing it to create an unlimited variety of effects, graphics and aerial shows. This show laser is perfect for any large application, shows and productions.

LASER Source: 30000mW diode
Red power/wavelength: 7000mW/638nm
Green power/wavelength: 9000mW/520nm
Blue power/wavelength: 14000mW/450nm
Color mixing: RGB
Safety class: 4
Modulation: Analogue

SCANNER Scan system: ILDA 40K pps
Scanning angle: $\pm 30^\circ$

CONTROL & PROGRAMMING Control protocols: ILDA, DMX, Auto, Sound, Master-slave
Internal patterns: 256
Control channels: 17 CHs

ELECTRICAL Input voltage: AC100-240V 50/60Hz
Power consumption: 380 watts

CONNECTIONS DMX Connections: 3 pin XLR In/Out male and female
Power connections: PowerCon In

PHYSICAL Dimensions: 420 x 410 x 280 mm
Net weight: 39 Kg
Color: Black
IP rating: 20
Operating temperature: 0°C/40°C
