

PIXIDOT STRING-OB is an outdoor IP67 rated string of bright 3D pixel balls created in customizable versions with predefined quantities and center to center distance. These 1.2 watts SMD RGB 3535 LEDs, 50mm 3D pixel balls can be used in several ways all leading to exceptional lighting effects. It can be suspended vertically or pulled horizontally forming a light curtain or a 3D pixels matrix shapes in events, clubs facades and all outdoor applications.

SOURCE Light source: 1.2 watts SMD RGB 3535 LEDs

OPTICAL SYSTEM Cover: Opal diffuser
View angle: 120°

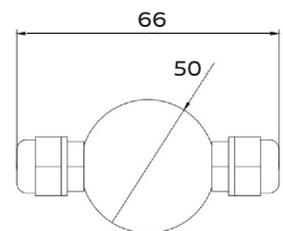

CONTROL & PROGRAMMING Pixels control: 1 pixel per dot
Color mixing: RGB
Control protocols: DMX, 44 FPS
Control channels: 3 CHs per dot
Address setting: Manual
Frames per second: 44

ELECTRICAL Input voltage: 24V
Power consumption: 1.2 watts per dot

CONNECTIONS Power and data connection: 5 pin female and male connection
Cable entry: Side

PHYSICAL Diameter: 50mm
Width: 66mm
Color: Black
IP rating: 67
Operating temperature: -40°C/50°C
