

The microphone and control are wired in the headphone cable and offer the freedom and convenience to accept calls, manage music playback and adjust the volume. Packaged in a convenient hard carrying case, the DuettoKD6B comes with four pairs of silicon ear tips to provide a custom fit while maximizing sound isolation, and a set of ear hooks for active use.

Each earbud is equipped with a 6 mm full-range transducer to provide amazing output capable of reproducing the frequency range from 5 Hz to 23 kHz at -12 dB ensuring high-definition audio with deep, rich bass and clear high frequencies.
The Duetto-KD6B, designed by our engineers with over 25 years of experience in the world of live professional audio, is a set of ultra-mini, high quality alumium alloy earbuds with an in-line microphone and control.
