A full-color, backlit display of XMT-500 and XMT-450 provides high contrast visibility while the intuitive menu system and multifunction soft keys make navigation easy.

The high-capacity internal Li-ion battery is compatible with common USB-C chargers.

In keeping with the motto **"designed to grow with your needs",** the **XMT-500** contains an impressive amount of processing power as well as plenty of memory space, which allows to feed the device with new features – complementary or as an upgrade.

Compact yet powerful, the **XMT-450** was developed as a future-ready tool – combining robust performance with upgradeable firmware and improved hardware. Designed as **a smart evolution of the XMT-350,** it supports demanding workflows while remaining easy to use.

XMT-500

DMX Tester & RDM / Ethernet Controller

—

The basic functionalities of the XMT-500 include useful features for DMX, RDM, Art-Net, sACN, signal testing as well as cable testing.

- DMX sender and receiver
- RDM controller with remote fixture configuration
- XLR and RJ-45 cable tester with auto pin-check
- DMX & RDM timing analyzer
- Flicker finder, signal tracer, and data flow monitor
- Scene and sequence player and recorder
- Fixture patching and addressing
- User profiles and configuration memory
- Art-Net/sACN sender and receiver via etherCON
- Expandable firmware for future upgrades

Enhancements compared to XMT-350:

- High-capacity rechargeable Li-ion battery
- USB-C connector for charging and data communication
- Wide & Color screen
- Enhanced form factor
- New keypad with rearranged buttons
- Screen scratch protector

XMT-450

DMX Tester & RDM Controller

—

XMT-450 is an upgraded successor for XMT-350, with a color display, USB-C connector, and an improved keypad layout.

- DMX sender and receiver
- RDM controller with remote fixture configuration
- XLR cable tester with auto pin-check
- DMX & RDM timing analyzer
- Flicker finder, signal tracer, and data flow monitor
- Scene and sequence player and recorder
- Fixture patching and addressing
- User profiles and configuration memory

Enhancements compared to XMT-350:

- High-capacity rechargeable Li-ion battery
- USB-C connector for charging and data communication
- Wide & Color screen
- Enhanced form factor
- New keypad with rearranged buttons
- Screen scratch protector
